Completion of “Logistics Center Kirishima” – A Strategic Hub for Business Expansion in the Kyushu Region –

SBS Group (President: Masahiko Kamata; Headquarters: Shinjuku-ku, Tokyo) held a ceremony on April 9 to mark the completion of “Logistics Center Kirishima”, located in Kirishima City, Kagoshima Prefecture.

“Logistics Center Kirishima” is the first logistics facility in Kyushu to be independently developed by SBS Group. The single-story warehouse has a total floor area of 7,080.25 m² and offers excellent transportation access, located approximately 1.3 km from the Kokubu IC on the Higashi-Kyushu Expressway. The center will serve as a wide-area logistics hub, enabling distribution and delivery not only within Kagoshima Prefecture but also to neighboring Miyazaki and Kumamoto prefectures.

Designed as a logistics base primarily for retail customers, the center supports both Transit Center (TC) functions [TC-1 and TC-2] and Distribution Center (DC) functions. It enables integrated logistics operations ranging from inbound handling and sorting to storage and outbound shipping. Following the installation of material handling equipment, the facility is scheduled to commence operations in September 2026.

Inside the warehouse, SBS Group will introduce state-of-the-art material handling systems to promote automation and labor-saving operations, thereby ensuring stable and highly efficient logistics services. The Group positions “Logistics Center Kirishima” as a model and strategic facility supporting future business expansion.
